

Brandon Hart

*Dir. Technical Business
Development*

- Brandon has more than a decade of experience in the wireless industry, and has worked extensively with developers and engineers to aid in the successful development of M2M and IoT solutions.
- By combining his business experience with technical knowledge, Brandon is able to effectively bridge the gap between sales and engineering.
- An active Maker, he is passionate about connected devices and regularly speaks on a variety of topics in the space.

About NimbeLink

NimbeLink is the leader in embedded cellular modem technology for today's IoT and M2M solutions. Our award-winning Skywire (tm) modems and related software and support services enable OEM customers to easily develop end-device certified IoT solutions for faster time to market.

At the Center of our product offering is the Skywire™ end-device certified cellular modem, eliminating time, cost and risk from the development process. In addition, NimbeLink has developed “nLink’s” a comprehensive portfolio of hardware, software and services speeding IoT products from concept to deployment.
